Manage blocking

Restricted List

When you add a friend to your Restricted list, they won't see posts on Facebook that you only share with Friends. They may still see things you share to Public or on a mutual friend's Timeline, and posts they're tagged in. Facebook doesn't notify your friends when you add them to your Restricted list. [Learn more](#).

Edit List

Block users

Once you block someone, that person can no longer see things you post on your timeline, tag you, invite you to events or groups, start a conversation with you, or add you as a friend. Note: Does not include apps, games or groups you both participate in.

Block users

Block

Block messages

If you block messages and video calls from someone here, they won't be able to contact you in the Messenger app either. Unless you block someone's Profile, they may be able to post on your Timeline, tag you and comment on your posts or comments. [Learn more](#).

Block messages from

Block app invites

Once you block app invites from someone, you'll automatically ignore future app requests from that friend. To block invites from a specific friend, click the "Ignore all invites from this friend" link under your latest request.

Block invites from

Block event invitations

Once you block event invitations from someone, you'll automatically ignore future event requests from that friend.

Block invitations from

Block apps

Once you block an app, it can no longer contact you or get non-public information about you through Facebook. [Learn more](#).

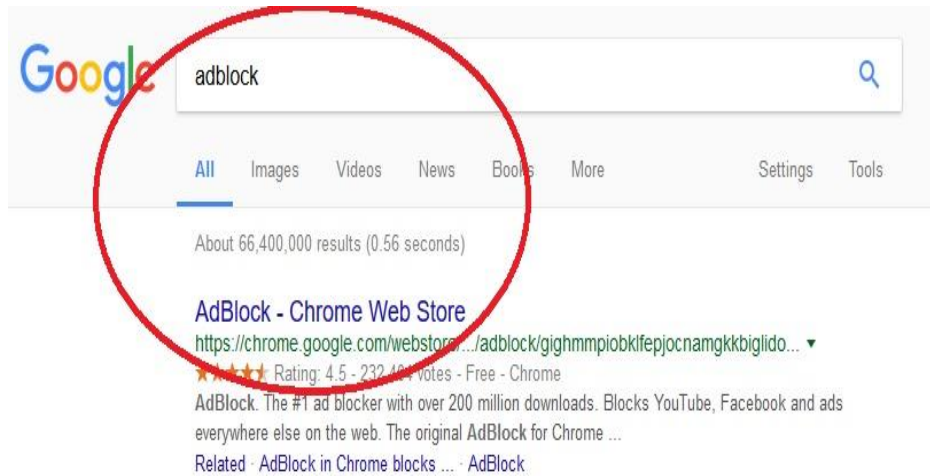

Block apps

Block Pages

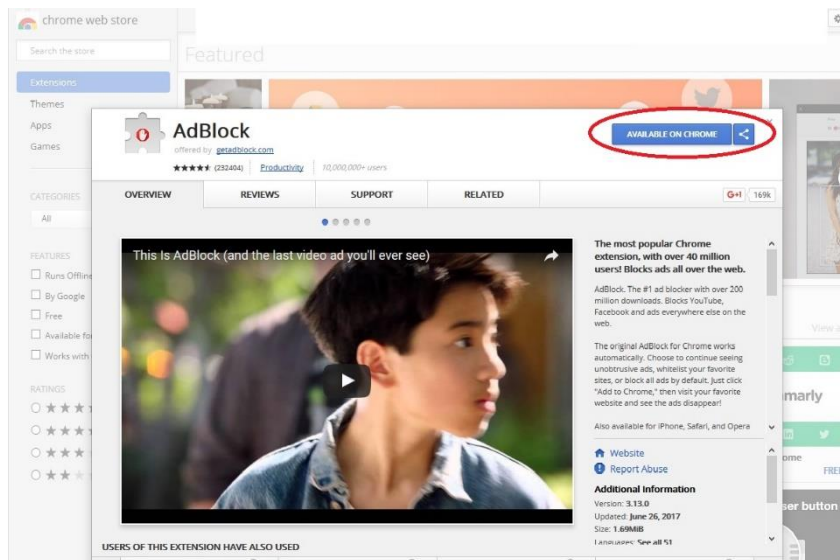

Once you've blocked a Page, that Page can no longer interact with your posts or like or reply to your comments. You'll be unable to post to the Page's Timeline or message the Page. If you currently like the Page, blocking it will also unlike and unfollow it.

How to block ads and annoying pop-ups

1. Type on your search engine “adblock” and select the first result

2. Select “available on chrome”

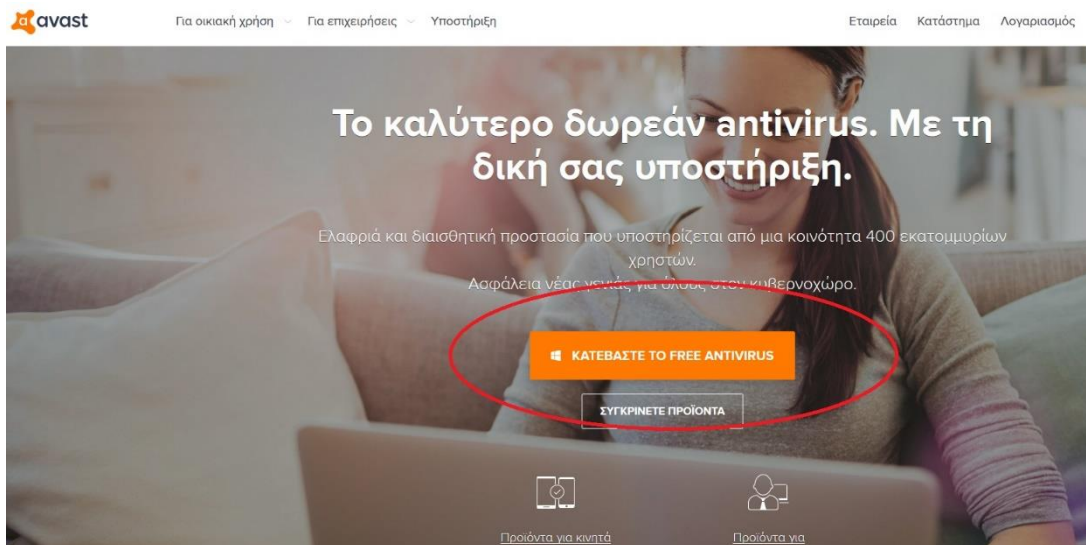

How to counter malicious software

1. Type “antivirus avast” on your search engine and select the first result

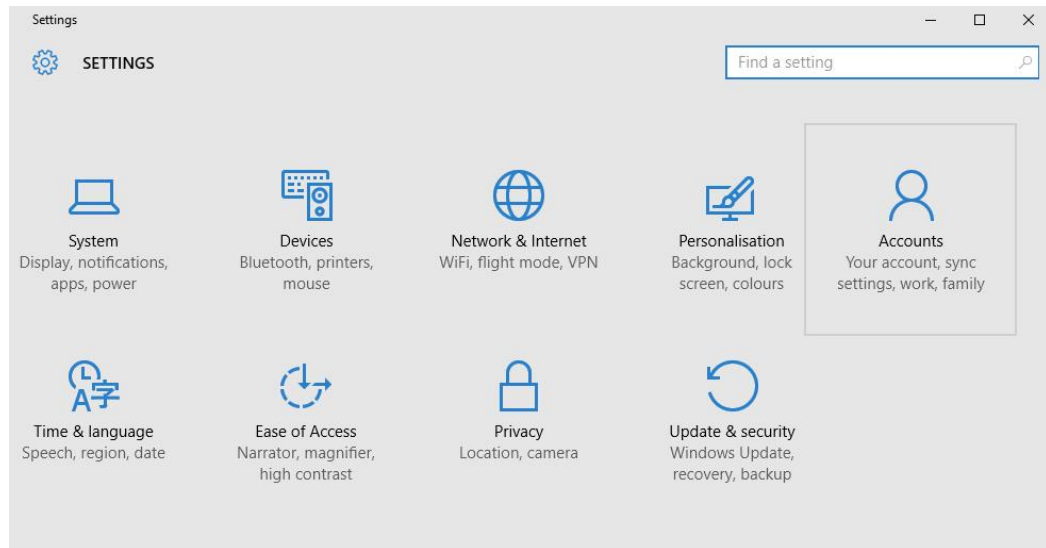

2. Lastly select “free antivirus” and follow the on-screen instructions to download

How to activate Parental Control

Step 1: Open the windows settings window, and then click on “Accounts”

Step 2: Select “Family & other users” and click on “Add a family member”, then proceed to follow the instructions that will appear on your screen
